

OUR GOAL IS TO PROVIDE OUR PATIENTS WITH THE BEST SERVICE AND CARE POSSIBLE.

We have been providing home health care for over 30 years. Joining the Pediatric Home Service (PHS) family has allowed us to strengthen our services in order to help kids with medical complexities succeed at home.

About Us

The Care Group of Texas is committed to provide state-of-the-art home medical service including:

- Respiratory Therapy and Equipment
- Enteral Supplies and Nutrition Support
- Incontinence and Urological Supplies
- Wound Care
- Wheelchairs

Our Services

Enteral Nutrition Program

We meet the needs of medically complex patients, families and health care providers with our comprehensive enteral supplies and nutrition support services.

We use evidence-based nutrition approaches to ensure patients are supported in meeting their health goals every step of the way.

Care you can Trust

We are now offering:

- One of the widest selections of specialty formulas and supplies along with support of navigating the options from our pediatric-focused dietitians.
- Registered Dietitian led pump set-ups (Houston)
- Specialized nutrition assessments, monitoring, intervention in-home or via telehealth by a Registered Dietitian
- Clinical follow-up to ensure patients are comfortable with their equipment and care
- Assistance with paperwork completion
- Education for caregivers

Respiratory Program

We provide ventilators, tracheostomy supplies, oxygen therapy, and CPAP and BiPAP machines along with clinical home support and personal training from experienced Respiratory Therapists in Houston and Dallas.

Discharge guidelines for home ventilator and new tracheostomy patients:

To ensure a safe discharge, we provide an initial patient evaluation at your facility, a home safety assessment, and training sessions to ensure caregivers are comfortable and confident with the equipment.

Ventilators

- Trilogy 100 /
Trilogy 200 /
Trilogy Evo
- LTV 1150

Tracheostomy

- Shiley
- Bivona
- Tracoe Silcosoft
